Section 9 Participation Assignment

Monday April 13th - Wednesday April 15th

Watch the recording of the section and complete the following assignment. Please send your solutions to your section TAs before next week’s section. Note that this assignment is only graded for completion.

**Question 1:** Draw out each step of Kruskal’s algorithm when performed on the graph in section. Also, draw the minimum spanning tree that results from this algorithm.

**Question 2:** In your own words, what is a rank trap in the PageRank algorithm and how can this problem be overcome?
