Sections are 1 hour sections designed to discuss and further study the lecture material. They meet weekly, except over Presidents Day week, Spring Break, and Reading Period. Students are expected to answer (100-250 words) a reading response question and post their responses on Canvas the night before their section. Led by two TAs, sections will include discussions of Canvas posts, and will feature debates, case studies, technical demonstrations, and policy/legislation work.

Expectations:
Thoroughly go through readings and come prepared with one focused question to discuss. Bring any topics that you’re still unsure about to the group.

Missing Section

If you cannot make your scheduled section, please email the TA list and we will try to reschedule you to a different section that week. However, we cannot guarantee that we can accommodate every request.
