Lecture 6

Battery Safety - don't fly under 11.3 v.
  - don't leave charging unattended!
  - don't use if too hot!

Why might a drone drift?
  - Calibration issues
  - Damaged hardware
  - Weight distribution

Networking

Design Scenario

=> connect drone to base station
  => No one right answer
  - hotspot
  - wifi / channels
  - Pi is master! Connect to:
    - Everybody connects to Pi LAB

MPS (Message Passing Libraries)

  - libbot/UCM
  - Yarp
  - ROS
  - Personal Robotics Message Passing
