Portfolios Reading

Released: Sept 7, 2017
Due: Sept 13, 2017

For this reading, you will review a collection of personal UI/UX portfolios. The goal of this reading is for you to draw inspiration from other designers in the industry and give you a vision of what your own portfolio might look like after taking 1300 and beyond! The portfolios are listed at the bottom of this page.

In your Canvas comment in your Buddy TA group, focus on two or three portfolios from the list that stood out to you. What aspects of the content inspires you? Is there a unifying process by which each project was set up or explained? Were you bothered by the content of any of these portfolios? How and why? How might you have done it differently? Try to focus on the content of the portfolios itself, and not as much the graphical elements.

**Please be diligent about submitting your comment by 11:55pm.** Reading comments will receive 0 points if they do not relate well to the reading, 1 point for relevant and interesting comments, and a small number of comments (about 10%) will receive 2 points for exemplary and highly insightful thoughts. Any late reading comment will not be graded. Other students' comments will be visible only after you have posted your own (which also means other students will be able to read your comment after they have posted as well). Please respond to your peers' remarks--let them know if they’ve said something inspiring or insightful!

**Keep comments below 200 words.** If your comment is more than 200 words, you will not be eligible to receive the 2 points. Do not edit or delete your comment after submitting. If you have something to add or amend, do so by replying to your original submission.
