CSCI1600: Embedded and Real Time Software

Lecture 3: Project Ideas

Steven Reiss, Fall 2017
Course Projects

- Make the course concrete
  - Understand the modeling, etc
- Understand the challenges
  - In embedded systems
  - In real time systems
Presentations

- Each person/group gets a chance
  - Sell your project
  - Get ideas from audience
    - PROVIDE FEEDBACK TO OTHERS
  - Recruit partners
Sell the project

- What it is
- Why is it worthwhile
  - Why you want to do it
  - Why others might want to help
- What is involved
  - Hardware and software
Homework
