Department of Computer Science
Ph.D. Transfer Credit Form

Name: ____________________________

Directions: PhD students may transfer a maximum of 8 courses into the PhD program. Every transferred course should be consistent with the goals of the Brown PhD requirements to ensure breadth, depth and quality. In general, transfer requests can be made for rigorous courses in computer science or related disciplines. A detailed syllabus of the course, information about assignments, readings etc., may be requested.

Fill in the boxes below for as many courses as you would like to transfer.

Step 1: Instructor Approval:
A. If you want to use a course to satisfy an area requirement, identify the equivalent course at Brown and get the approval of the professor who teaches that course.
B. If the course is not to be used to satisfy an area requirement, skip to Step 2.

Step 2: Advisor Approval: Your advisor will check to make sure the transferred course is suitable and relevant to your course of study. Their approval is required for all courses you want to transfer.

Step 3: DGS Approval: Submit the signed form, along with the Registrar's "Application for Graduate Transfer Credit", to the FASAM to obtain the DGS' approval.

Course to be transferred:

<table>
<thead>
<tr>
<th>Number</th>
<th>Name</th>
<th>Check if 2000-level credit has been earned</th>
<th>If this course will NOT substitute for a Brown course, check here</th>
</tr>
</thead>
</table>

Brown CS course being replaced:

<table>
<thead>
<tr>
<th>Number</th>
<th>Name</th>
</tr>
</thead>
</table>

School and professor of course being transferred:

Prof: ____________________________
School: ____________________________
Justification: please provide a brief explanation for how this course will satisfy your requirements

Signature of Professor approving substitution
Signature of Faculty Advisor

Check if 2000-level credit has been earned
If this course will substitude for a Brown course, check here
