Hiring: Juniors, Seniors, Master's

**DonorsChoose.org** / Non Profit
**Location:  CIT 102**
We're a charity that makes it easy for anyone to help a classroom in need. DonorsChoose.org started helping America's public schools in 2000 (years before crowdfunding was even a word), and we're equal parts tech startup and education nonprofit. More than 80% of U.S. public schools have at least one teacher who's created a project on our site, and to date we've raised over $800 million for books, art supplies, field trips, and more. We are currently hiring a full-time Software Engineer in our offices in New York City.

Hiring: Seniors, Master's, PhD

**Facebook** / For Profit
**Location:  CIT 316**
Facebook's mission is to give people the power to build community and bring the world closer together. Through our family of apps and services, we're building a different kind of company that connects billions of people around the world, gives them ways to share what matters most to them, and helps bring people closer together. Whether we're creating new products or helping a small business expand its reach, people at Facebook are builders at heart. Our global teams are constantly iterating, solving problems, and working together to empower people around the world to build community and connect in meaningful ways. Together, we can help people build stronger communities — we're just getting started.

Hiring: First years, Second year, Juniors, Seniors, Master's

### Goldman Sachs / For Profit
**Location: CIT 368**

The Goldman Sachs Group, Inc. is a leading global investment banking, securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. Founded in 1869, the firm is headquartered in New York and maintains offices in all major financial centers around the world.

Hiring: Juniors, Seniors, Master's

### Google / For Profit
**Location: CIT 241**

Google's mission is to organize the world's information and make it universally accessible and useful. When we say we want to build for everyone, we mean everyone. We aim to create a workplace that celebrates the diversity of our employees, customers, and users. We are looking for students who are passionate about this mission and want to help us in achieving our goals. We have several internship and full-time opportunities for you to consider!

Hiring: First year, Second year, Juniors, Seniors, Master's, PhD

### Microsoft / For Profit
**Location: CIT 477**

We are hiring for software engineer and technical PM roles! We are looking for amazing engineers from Brown to help us empower every person on the planet to achieve more. If you are interested, please apply at microsoft.com/university.

Hiring: First year, Second year, Juniors, Seniors, Master's

### MongoDB / For Profit
**Location: CIT 4th Atrim**

MongoDB is the leading modern, general purpose database platform, designed to unleash the power of software and data for developers and the applications they build. Co-founded by Brown alumnus and current CTO, Eliot Horowitz and headquartered in New York, MongoDB has more than 15,000 customers in over 100 countries. The MongoDB database platform has been downloaded over 70 million times and there have been more than one million MongoDB University registrations. MongoDB is primarily looking to hire Software Engineering Interns for our summer 2020 internship and we look forward to meeting you soon!

Hiring: First year, Second year, Juniors, Seniors, Master's (for internships)

### pMD / For Profit
**Location: CIT 3rd atrium**

pMD is a fast-growing, highly rated health care technology company that develops intuitive, elegant mobile software that improves patient care and makes doctors happy. Our mobile software eliminates tedious manual processes so doctors can spend more time on the health care issues that matter most. We're profitable, have extremely happy customers, and make up a team of people as talented and passionate as you are. We love what we do, care about doing good in the world, and are looking for full-time software engineers and 2020 summer engineering interns to join our team.

Hiring: Juniors, Seniors

### Teach for America / Non Profit
**Location: 1st floor atrium**

Teach For America (TFA) is a leadership development organization focused on the systemic challenges facing children growing up in poverty. While potential is equally distributed across lines of race and class, opportunity is not, and we seek to correct this injustice. We recruit, train, and support talented and ambitious leaders from all career backgrounds and academic majors to teach in high-need communities across the US. We recruit outstanding and diverse leaders to become "corps members." As a corps member, you'll be a full-time teacher for two years at the preschool, elementary, middle, or high school level, with the opportunity to lead real change and make a deep impact on your students and the community that you serve. Teach For America corps members teach a variety of subjects, including (but not limited to): science, math, computer science, humanities, language arts, English, reading, special education, Spanish/bilingual education, ESL, history, social studies, and more.

Hiring: Juniors, Seniors, Master's, PhD
